

B1260015 MSA Ground Spike

## Description

### B1260015 MSA Ground Spike

The B1260015 MSA Ground Spike is MSA Compatible Aftermarket New Turbo Flow Spike & Clip, for use with MSA Fresh Air BA Sets.

- **Equivalent to MSA PART NO: B1260015**

With over five million units sold, the upgraded 3S Full-Facepiece Respirator prioritises safety, comfort, and durability. The face blank, crafted from a softer rubber compound (with a yellow silicone option available), features a wide sealing frame and deeper chin stop, ensuring a snug yet comfortable fit.

Furthermore, the impact-resistant polycarbonate lens (with additional silicate-coated glass and Triplex glass options) provides a wide field of vision for optimal awareness and viewing clarity. The harness design not only allows for quick and easy donning and removal, but also achieves a pressure-free fit even when worn in combination with a protective helmet. Additionally, the inner mask maximises airflow, effectively

eliminating lens fogging for uninterrupted vision.

With over 50 different versions available, you're sure to find the perfect mask to suit your individual needs.

### Key Features:

- **MSA Compatibility:** Designed to work seamlessly with MSA Fresh Air BA Sets.
- **Turbo Flow Spike & Clip:** Enhanced design for efficient airflow and secure connection.
- **Equivalent to MSA PART NO: B1260015:** A reliable aftermarket alternative to the original MSA part.
- **High-Quality Materials:** Durable construction ensures long-lasting performance.
- **Easy Installation:** Simple to attach and detach for quick setup and maintenance.
- **Enhanced Safety:** Helps maintain proper grounding and safety during use of MSA BA sets.

### Why Choose TocDem Utilities?

With the 1260015 MSA Ground Spike TocDem Attachments & Utilities will not be beaten on price, quality or after-sales service. Customer support long after the sale is just what we do. All parts & accessories are kept in stock. TocDem Utilities offers an excellent efficient re-calibration service in its well-established Calibration Workshop.

Our service engineers have over 100 years of combined specialist electronic and hydraulic experience. We believe in investing in people and constantly have our staff re-trained in line with the latest industry techniques.
