

LMX150 FINDAR Ground Penetrating Radar (GPR)

Description

LMX150 FINDAR Ground Penetrating Radar (GPR)

The Radiodetection LMX150 FINDAR Ground Penetrating Radar (GPR) is your solution for precise utility locating. This compact and portable system offers an incredible balance of extremely high resolution and depth penetration.

Providing a complex picture of an underground infrastructure, the simple and easy-to-use incorporated interface is ideal for accurately locating buried assets.

CLICK TO CALL FOR HELP & INFORMATION. WE WON'T BE BEATEN ON PRICE,
QUALITY OR AFTER SALES SERVICE!

Key advantages of the LMX150 Radar

LMX150 FINDAR Ground Penetrating Radar (GPR) systems complement traditional pipe and cable locators and allow you to Locate & Mark:

- Metal utilities including pipes and cables,
- Non-metallic pipes such as PVC and asbestos cement,
- Concrete storm and sewer systems,
- Utilities with broken or failed tracer wires,
- Trenches and disturbed soil often associated with utility burial,
- Unexpected obstacles or buried structures such as old foundations,
- Underground storage tanks, drainage tiles,
- Septic system components,
- Non-utility structures such as vaults, foundation walls or concrete pads,
- Undocumented utilities.
