

MSA Turbo Flow Blower

## Description

## Refurbished MSA Turbo Flow Blower

Looking for a dependable, high-performance breathing air supply? Look no further than our refurbished MSA Turbo Flow Blower. Thoroughly serviced, calibrated, and tested, this unit arrives with a fresh 12-month calibration certificate, ensuring optimal performance and giving you peace of mind.

### Key Features:

- Simple and easy to use
- IP54 protection from dust and liquids
- Steel casing and nylon potentiometer knob
- ~~Conforms to EN138 Class 2 and EN136 Class 2~~

- Meets requirements of EN 60335 1:2012+A11

## Why Choose the MSA Turbo Flow Blower?

- **Enhanced Safety:** The Turbo Flow Blower delivers a continuous, uninterrupted supply of fresh air for up to two users in hazardous environments, keeping you safe and secure.
- **Increased Productivity:** Say goodbye to time restrictions caused by limited air supplies. With the Turbo Flow Blower, you can enjoy extended work periods and greater efficiency.
- **Proven Reliability:** Renowned for its robust construction and efficient operation, the Turbo-Flo blower consistently delivers reliable performance.
- **User-Friendly Design:** Simple, intuitive operation ensures quick setup and easy adjustments, so you can focus on the task at hand.
- **Superior Protection:** Meeting EN138 Class 2 and EN136 Class 2 standards, the Turbo Flow Blower provides exceptional protection from dust and liquids (IP54 rating).
- **Versatile & Adaptable:** This unit is compatible with a wide range of MSA respirator mask kits and air supply hose lengths (9m to 54m), giving you flexibility to suit your specific needs.

## MSA Turbo Flow Blower is a Breathing Apparatus Turbine Unit

Also known as “turbo flow,” the Turbo-Flo blower is designed for use with a fresh air respirator mask kit. Compact, lightweight, robust, and incredibly easy to operate, this blower offers a virtually unlimited air supply, allowing you to work without time constraints. It draws in fresh air and pumps it through air supply hoses ranging from 9m to 54m in length, providing supported air to one or two users. Furthermore, the Turbo Flow Blower ensures a minimum flow volume of 120 l/min per user, with individually adjustable flow volumes at the blower itself.
