Genny4 (Part no: 10/GENNY4EN)

Genny4's patented simultaneous dual-frequency signal output facilitates location of small diameter cables such as telecoms and street lighting, including spurs. All CAT4 locator models have patented technology to detect both signals simultaneously. The power boost function in Genny4 enables the locate signal to travel further and deeper, and couple onto utilities more easily.

CAT4® and Genny4® products provide a comprehensive range of Cable Avoidance Tools helping professionals to drive best locating practice, reduce the number of cable strikes, and dig more safely.

Why Choose TocDem Utilities?

With the brand new Radiodetection Genny4 Signal Generator TocDem Utilities and Attachments will not be beaten on price, quality or after-sales service. Customer support long after the sale is just what we do. All parts & accessories are kept in stock. TocDem Utilities offers an excellent efficient re-calibration service in its well-established Calibration Workshop.

Our service engineers have over 100 years of combined specialist electronic and hydraulic experience. We believe in investing in people and constantly have our staff re-trained in line with the latest industry techniques.

As a Radiodetection GOLD distributor, we are able to support all of your Underground cable location, survey, ground penetration radar and accessory needs.

We offer a full national & international shipping and customs clearance service, which can always be arranged by our friendly experienced administration team.
