

Refurbished Radiodetection gCat4+ Cat and Genny Kit

Description

Refurbished gCAT4+ and Genny Kit

Dig smarter and safer with this fully refurbished Radiodetection gCAT4+ CAT and Genny kit. This powerful combination of Cable Avoidance Tool (CAT) and Signal Generator (Genny) technology is designed to help you pinpoint buried cables and pipes with speed and accuracy, reducing the risk of costly strikes and ensuring the safety of your team.

The refurbished gCAT4+ receiver and Genny4 transmitter, leaders in the industry, make locating underground utilities faster and easier than ever. Experience enhanced performance and precision, allowing you to locate more buried utilities quicker.

The gCat+ and Genny Set is:

- Fully refurbished and serviced

- Freshly calibrated & tested
- Supplied with a 12-month calibration certificate
- Hire to buy packages available
- Trade-ins are welcome
- Full service & recalibration support offered

Explore Radiodetection's cutting-edge range of CAT Cable Avoidance Tools and Genny Signal Generators. Designed to help professionals locate buried utilities quickly and accurately, CAT4 and Genny4 products drive best practices, reduce cable strikes, and enhance safety on every dig.

gCAT4+ (Part no: 10/GCAT4+EN03)

Enhance your cable avoidance practices with the gCAT4+. This advanced model not only logs usage data but also captures GPS positioning. Seamlessly transfer this information to the CAT Manager Online cloud system via Bluetooth for near real-time performance monitoring of your operators.

CAT4 & Genny4

The CAT4® and Genny4® product range provides a complete suite of Cable Avoidance Tools, empowering professionals to implement best practices, significantly reduce the risk of cable strikes, and foster a safer working environment.

Genny4 (Part no: 10/GENNY4EN)

Genny4's unique dual-frequency signal output enables the location of even small-diameter cables like telecoms and street lighting, including spurs. All CAT4 locators

are equipped with patented technology to detect both frequencies simultaneously. The Genny4's power boost function further enhances signal reach and depth, making it easier to locate buried utilities.

Why Choose TocDem Utilities?

TocDem Utilities beats the competition on price, quality, and after-sales support with our Cable Locators and other Cable Avoidance Tools. We're dedicated to helping you long after your purchase, with all parts and accessories in stock. Our re-calibration service in the well-established workshop is fast and reliable.

Additionally, our engineers have over 100 years of combined experience in electronics and hydraulics. We believe in investing in people and constantly have our staff re-trained in line with the latest industry techniques.

We also invest in our people and we provide constant training on the latest techniques. As a Radiodetection GOLD distributor, we're your go-to source for underground cable location, survey, ground penetrating radars, and many other accessories. Our friendly team can help with national and international shipping and customs clearance.
