TGR16 TocDem 18 to 25 Tonne Demolition Selector Grab

The TGR16 TocDem 18 to 25 Tonne Demolition Selector Grab is manufactured using particularly wear-resistant steels, making it ideal for demolishing brick structures, timber, and various other materials. Moreover, it is built specifically for excavators weighing up to 25 tonnes, offering outstanding power and ensuring quick and efficient demolition operations.

In addition to its superior build, the unique design of this grab not only enhances its demolition capabilities but also improves the sorting and handling of materials. As a result, it simplifies recycling processes and boosts on-site efficiency.

What We Offer at TocDem

- **Huge 3 Year Warranty** – providing peace of mind and long-term value
- Hire-to-Buy packages available for flexibility
- Trade-ins welcome, allowing easy equipment upgrades
- Finance options available (subject to status), making investment easier
- Full service and recalibration support offered for continued performance
- Heavy Duty Slew Ring
- Heavy Duty Motor
- Heavy Duty Chassis

TocDem Selector Grapples are delivered fully set up and ready for immediate use, complete with hoses, pins, and a head bracket/hanger built to your exact specification. What's more, every unit comes with a 3-year warranty as standard.

Why Choose TocDem Attachments?

As both a service provider and manufacturer, TocDem Excavator Attachments places a strong emphasis on quality control. We conduct thorough pre-delivery inspections and testing on all TocDem Hydraulic Grabs to guarantee performance and reliability.

Additionally, our continuous investment in technology and innovation ensures our products remain at the forefront of the industry. This, combined with our commitment to outstanding customer service, sets us apart.

Equally important, we always stand behind every product we sell. To support our customers, we maintain a complete inventory of spares for TocDem Grapples—ready for immediate dispatch. Moreover, our team provides expert technical advice and ongoing support across our full range of TEB Hydraulic Grabs.

**** Due to ongoing development, specifications may change at any time.**

Safety Information

These tools should only be operated by trained, qualified personnel. A valid risk assessment and method statement must always be in place before use. The excavator should also be fitted with a cab and demolition guards.
