TGR42 TocDem 50 to 65 Tonne Demolition Selector Grab

The TGR42 TocDem Demolition Selector Grab is specifically designed for excavators weighing between 50 and 65 tonnes. Crafted from highly wear-resistant steel, this robust tool excels in demolishing brick structures, timber, and a wide range of other materials. Furthermore, its construction ensures outstanding power and performance, delivering fast and efficient results on demanding job sites.

In addition to demolition capabilities, its intelligent design significantly enhances material selection and handling. As a result, recycling becomes easier and site operations become more streamlined.

What We Offer at TocDem

- **Huge 3 Year Warranty** for long-term reliability
- Hire-to-Buy packages available to suit your budget
- Trade-ins welcome, allowing smooth equipment upgrades
- Flexible finance options available (subject to status)
- Comprehensive service & recalibration support to keep your tools running at their best
- Heavy Duty Slew Ring
- Heavy Duty Motor
- Heavy Duty Chassis

Each TocDem Selector Grapple is delivered fully set up and ready for immediate use, complete with hoses, pins, and a custom-made head bracket or hanger. Moreover, all models come with a 3-year warranty as standard for your peace of mind.

Why Choose TocDem Attachments?

At TocDem Excavator Attachments, we not only manufacture high-performance equipment but also act as a service-focused partner. We carry out extensive pre-delivery inspections and rigorous testing on all hydraulic grabs to ensure unmatched quality and reliability.

Additionally, we continuously invest in innovative technologies and product improvements to keep our range ahead of the curve. As part of our commitment to excellence, we maintain a full stock of spares ready for dispatch, ensuring minimal downtime for your operations.

More importantly, we stand behind everything we sell. Our dedicated team is always available to provide technical guidance and customer support across the full range of TEB Hydraulic Grabs.

**** Due to ongoing development, specifications may change at any time.**

Important Safety Note

These tools must only be used by trained and qualified personnel. A valid risk assessment and method statement must be completed prior to use. Additionally, the excavator should always be equipped with a cab and demolition guards.
