TRV35 – 30 to 40 Tonne Concrete Pulveriser

The TocDem TRV35 concrete pulveriser is a powerful rotating demolition attachment designed for 30 to 40 tonne excavators.

Engineered to excel in both primary and secondary demolition, this heavy-duty crusher and muncher boasts HARDOX construction, guaranteeing exceptional durability and wear resistance in the toughest conditions.

The regenerative circuit ensures rapid jaw opening and closing, maximising productivity on the job site. Additionally, its 360° hydraulic rotation allows operators to precisely position the pulveriser in any demolition scenario, increasing efficiency and control.

Our TocDem concrete crunchers arrive fully set up and ready for immediate use, with hoses, pins, and a head bracket/hanger tailored to your specifications. And for added peace of mind, we back every unit with a 2-year standard warranty.

What we offer at TocDem

- 3 Year Warranty
- Hire To Buy Packages Available
- Trade-Ins Are Welcome
- Finance Can Be Arranged (subject to status)
- Full service & recalibration support offered

CLICK TO CALL FOR HELP & INFORMATION. WE WON'T BE BEATEN ON PRICE, QUALITY OR AFTER SALES SERVICE!

All prices are subject to VAT & delivery.

Why Choose TocDem Attachments?

With our demolition concrete crushers, TocDem Attachments & Utilities will not be beaten on price, quality or after sales service. Customer support long after the sale is just what we do. We have all parts & accessories in stock. With our TocDem Excavator Attachments we also offer an excellent efficient re-calibration service in our well-established Calibration Workshop.

Our service engineers bring over 100 years of combined specialist electronic and hydraulic experience. At TocDem, we invest in our people and ensure our staff receive ongoing training in the latest industry techniques. Our friendly and experienced administration team can always arrange a full national and international shipping and customs clearance service for you.

**** Due to ongoing development specifications may change at any time.**

These tools should only EVER be operated by trained, qualified personnel. A valid risk assessment & method statement should always be in place before use. The Excavator powering this item should always be fitted with a cab & Demolition guards.
