### **TSH14 Scrap Demolition Recycling Shear 12 to 18 Tonne**

The TocDem TSH14 Scrap Demolition Recycling Shear is a high-performance attachment, specifically engineered to maximise productivity and efficiency for your 12 to 18 Tonne excavator.

Constructed with HARDOX and STRENX steel, this hydraulic shear delivers exceptional durability. Consequently, it can handle the demolition of tanks, pipes, and steel structures with ease. Furthermore, its high cutting force ensures fast, precise results—guaranteeing top performance under demanding conditions.

## Additional Highlights of the TSH Series

---

- Double-register blade guide ensures precision even in high-stress conditions
- Interchangeable and reversible blades offer extended life and consistent performance
- Reversed hydraulic cylinder and regenerative speed valve improve productivity by up to 30%
- Pressure relief valve protects against damage in overpressure scenarios
- 360-degree hydraulic rotation in both directions ensures precise positioning

## **Technical, Customer & After-Sales Support**

At TocDem Attachments, we pride ourselves on standing firmly behind every product we sell. As such, we maintain a full inventory of spare parts for TocDem Shears—available for immediate delivery.

Additionally, our team is always on hand to provide expert technical advice and customer support across our full product range.

All TocDem TSH Hydraulic Shears are supplied fully equipped and ready to use. This includes head brackets, hangers, pins, and hoses—all included within the listed price for your convenience.

**All prices are subject to delivery charges & VAT**

**\*\* Due to ongoing development, specifications may change at any time.**

## **Important Safety Note**

These tools must only be operated by trained and qualified personnel. A valid risk assessment and method statement should always be in place prior to use. Moreover, the excavator must be fitted with a cab and appropriate demolition guards.
